Report from the President

[Photograph: A woman with short, wavy hair and glasses, wearing a dark blouse, looking directly at the camera. No caption identifying her appears with the photograph.]

The semi-annual meeting of the Executive Board of the North Carolina Library Association met in the Library Science Department at Appalachian State University on Friday, July 31, with all members present except one. In addition to the regular board members several section chairmen were present to engage in various discussions: Mr. Kenneth Brown, Public Library; Mrs. Ruth Prince, Resources and Technical Services; Mrs. Eunice Drum, Junior Members Round Table; and Mr. John Johnson, Junior College Committee. Also present were two invited guests: Dr. Doris Cox, Chairman of the Library Science Department at ASU, and Dr. Richard Leach, Director of the North Carolina Library Services Network Project.

A long and busy day ensued with much business transacted. Perhaps of greatest interest to the membership were: (1) Endorsement of the reprinting of a number of out-of-print North Carolina books (watch for announcements or letters from Bill Powell) (2) Recommendation to the Constitution and Codes Committee to draw up a proposed amendment to the constitution putting dues on a biennial basis, instead of an annual basis (3) Decision to reactivate the North Carolina Books Committee (4) Approval of a conference on library education to be held this fall and conducted by the Education for Librarianship Committee (specific announcements will come later) (5) Decision to allow junior and community college libraries to apply for section status (6) Approval of an experimental format for the 1971 biennial convention (please send ideas concerning subjects pertinent to all areas of librarianship to Miss Elizabeth Copeland) (7) Discussion of the preliminary report on the North Carolina Libraries Services Network. If any librarian desires more information on the last item, I would suggest that you write to Dr. Leach, the project director, or to Mr. Philip Ogilvie, State Librarian. Public librarians, on the whole, have informed themselves already about this project. It would behoove college, school, and special librarians to do so, also, if they have not.

We are happy to report that the recipients of the association scholarships have already begun their work this summer: Mrs. Elizabeth Laney, the Joseph Ruzicka Scholarship, at the University of North Carolina at Chapel Hill; and Mrs. Carolyn Loftis, the North Carolina Library Association Memorial Scholarship, at Winthrop. Congratulations to both!

Some of you have requested that the annual directory of membership carried in NORTH CAROLINA LIBRARIES use your home addresses. Because of computerization, your mailing address given by you on your membership form must be used. So, in the future, if your home address is what you prefer, please list that as your mailing address.

We trust that all of you have had a good, restful vacation. We will see some of you this fall at the NCASL workshop or at the SELA meeting in Atlanta.

Center for Art Resources in North Carolina

William Madison Randall Library, University of North Carolina at Wilmington

The William Madison Randall Library of the University of North Carolina at Wilmington has established a "Center for Art Resources in North Carolina." The need for such a Center has grown out of the recognition that although there are numerous scattered collections of materials over the State there is no central location of source material on North Carolina art and artists. A concerted effort for collecting such material is urgent. Unless this is done, much material of historical value will be lost forever.

In establishing the Center two objectives have been kept in mind:

1. To establish a central resource center for the collection and preservation of source materials pertaining to the visual arts in North Carolina. This will include materials on art, artists and their works, galleries and museums, organizations on the local and State levels, shows, exhibitions, etc.
2. To serve as the Center for the dissemination of information on art and artists of North Carolina.

The type of material to be collected consists of newspaper clippings, catalogs and brochures of exhibitions, newsletters and bulletins of organizations, museums and galleries, records of institutions and various arts councils, biographical information on artists and their works, and publicity of any kind dealing with the visual arts.

It is recognized that little of this type of material can be bought. It must be collected from clipping files in libraries, personal files of individual artists and collections in museums, galleries and organizations. The Center solicits the help of all people interested in art in North Carolina in locating and acquiring materials. Original sources, whenever possible, are desired. When this is impractical, Xeroxed copies of originals are acceptable. Any help you can give the Center in this project will be greatly appreciated. All materials and information concerning resources should be sent to:

Mr. Claude Howell, Art Department, University of North Carolina at Wilmington, Wilmington, North Carolina 28401.

Old Chemistry Books in the Raleigh-Durham Area Libraries

By Will S. DeLoach, Department of Chemistry, University of N. C. at Wilmington, Wilmington, N. C. 28401

In the Raleigh-Durham-Chapel Hill area there are about a dozen college, university, and general public libraries, with a total of more than four and one quarter million volumes. A bibliography of the old chemistry books in these libraries has been prepared. In this work, which was done over a two year period ending in the spring of 1967, all books classified 540-548 (Dewey Decimal) or QD (Library of Congress) and published in 1860 or before were recorded. Journals and reprints of books were not listed.

The college and university libraries in the area, the North Carolina State Library, and the public libraries in Raleigh and Durham were included. All of the large libraries and some of the smaller ones were searched personally, and the others were reached by letter. The author wishes to take this opportunity to thank the members of the various library staffs for their help.

A total of 159 old chemistry books was found, including different editions of the same title. All of these are in the libraries of Duke University, the University of North Carolina at Chapel Hill, and North Carolina State University, with one duplicate (Sir Humphry Davy's Collected Works) in the North Carolina State Library.

Table I gives a breakdown of the publication dates, showing the number of books published in each decade from 1781 to 1860.

Table I: Number of Books Published, By Decade

Years	Number of Books
1851-60	48
1841-50	38
1831-40	16
1821-30	17
1811-20	13
1801-10	13

Years	Number of Books
1791–1800	4
1781–90	3
before 1781	7 (1 each in 1777, 1753, 1741, 1735, 1722, 1679, and 1634)
Total	159

Table II shows the libraries in which these old chemistry books are located, with the code used to identify each.

Table II: Libraries and Their Identification Codes

Library	Code
North Carolina State Library	Nc
Duke University	NcD
N. C. State University	NcRS
University of North Carolina-CH	NcU

A similar bibliography of old chemistry books in the Nashville, Tennessee libraries has been published.¹

Following is the list of books, with the codes designating the libraries in which they were found.

Bibliography of Old Chemistry Books

- Accum, Frederick. System of Theoretical and Practical Chemistry . . . 2nd American ed. Philadelphia, Kimber & Conrad, 1814. 2v. NcU.
- Aiken, Arthur & C. R. Aikin. A Dictionary of Chemistry and Mineralogy. London, John and Arthur Arch, 1807. 2v. NcU.
- Bergman, Torbern Olof. An essay on the usefulness of chemistry, and its application to the various occasions of life. London, J. Murray, 1783. NcRS.
- Berthollet, Claude Lovis. An Essay on chemical statics. London, J. Mawman, 1804. 2v. NcU.
- Berzelius, Johan Jacob. Rapport Annuel sur les progrès de la chemie. Paris, Fortin, Masson & cie. 3v. 1841, 1842, 1843. NcU. Berzelius also wrote The use of the blowpipe in chemical analysis in the examination of minerals. London, Baldwin, Cradock & Joy, 1822. NcU.
- Black, Joseph. Lectures on Elements of Chemistry . . . First American ed. from the last London ed. Philadelphia, Mathew Carey, 1807. 3v. NcU.
- Boerhaave, Herman. Elements of Chemistry . . . London, J. & J. Pemberton, 1735. 2v. NcU. Boerhaave also wrote A New Method of Chemistry . . . London, Longmans, 1741, NcD; and A New Method of Chemistry . . . Third ed. London, T. & T. Longmans, 1753. 2v. NcU.
- Booth, James C. The Encyclopedia of Chemistry. Philadelphia, Henry C. Baird, 1850. NcU.

- Bowman, John E. Introduction to practical chemistry. Philadelphia, Lea & Blanchard, 1849. NcU.
- Brande, William Thomas. A Manual of Chemistry. First American ed. from second London ed. New York, George Long, 1821. 3v. in 1. NcU. Brande also wrote A Manual of Chemistry, 6th ed., London, John W. Parker, 1848, 3v. in 2, NcU; and The subject matter of a course of ten lectures on some of the arts connected with organic chemistry . . . London, Longman, Brown, Green, and Longmans, 1854. NcU.
- Catalogue des livres de fonds de Fortin, Masson and cie. Paris, Paul Renouard, 1844. NcU.
- Chaptal de Chanteloup, Jean Antoine Claude. Elements of Chemistry. 3rd American ed. Boston, J. T. Buckingham, for Thomas and Andrews, 1806. 3v. in 1. NcU. Chaptal de Chanteloup also wrote Elements of Chemistry, 4th American ed., Philadelphia, Benjamin & Thomas Kite, 1807, v. 1-2 (v. 3 missing), NcU.
- Comstock, John Lee. Elements of Chemistry. Hartford, D. F. Robinson & Co., 1831. NcRS. Comstock also published Elements of Chemistry, New York, Pratt, 49th ed., 1844, NcD; New York, Pratt, Woodford, Farmer & Brace, 1854, NcU; and New York, Pratt, Woodford, & Co., 1854, NcD.
- Cooke, Josiah Parsons. Chemical problems and reactions. Cambridge, John Bartlett, 1857. NcU. Cooke also wrote Elements of chemical physics. Boston, Little, Brown & Co., 1860. NcU.
- Cooper, Thomas. The Emporium of Arts and Sciences. Philadelphia, Kimber & Richardson, 1813. v. 1. NcU. Cooper also wrote Introductory Lecture. Carlisle, Pa., Printed by A. London, 1812. NcD.
- Cutbush, James. The Philosophy of experimental chemistry. Philadelphia, Isaac Peirce, 1813. 2v. NcU.
- Dalton, John. A new system of chemical philosophy. London, Bickerstaff, 1808-27, 2v. in 3. NcRS; London, G. Wilson, 1808-27, 2v. in 3. NcD; 2nd ed., London, J. Weale, 1842, 2v. in 3, NcD.
- Daniell, John Frederic. An Introduction to study of Chemistry. London, John W. Parker, 1839. NcU.
- Davy, Sir Humphry. Collected Works. London, Smith, Elder and Co., 1839-1840. 9v. Nc, NcD. Davy also wrote Elémens de philosophie chimique. Paris, J. E. G. Du Four, 1813, 2v., NcU; and Researches, chemical and philosophical, chiefly concerning nitrous oxide. London, J. Johnson, 1800. NcU.
- A Dictionary of Chemistry. 2nd ed. London, T. Cadell & P. Elmsly, 1777. 3v. (This is a translation of a French dictionary, attributed to Macquer.) NcU.
- Digby, John, tr. A philosophical account of nature in general and of the generation of the three principles of nature, vi 2 mercury, sulphur, and salt, out of the four elements. London, John Hooke, 1722. NcU.
- Draper, John William. A Textbook on Chemistry for the Use of Schools and Colleges. 6th ed. New York, Harper & Bros., 1848. NcD, NcU; New York ed., 1853, NcD.

- Dumas, Jean B. and J. B. Boussingault. Chemical and physiological balance of organic nature. New York, Saxton and Miles. From the 3d ed., 1844. NcU.
- Ewell, Thomas. Plain Discourses on the Laws or Properties of Matter. New York, Printed for Brisban and Brannan, 1806. NcD.
- An Explanatory Dictionary. ("By a Practical Chemist"). London, Thomas Boys, 1824. NcU.
- Fabre, Pierre Jean. Hercules Piochymicus . . . Tolosae Tectosagum, Apud Petrum Bosc, 1634. NcD.
- Faraday, Michael. Chemical manipulation. London, W. Phillips, 1827. NcU. Faraday also wrote Six lectures on the non metallic elements . . . London, Longman, Brown, Green, and Longmans, 1853. NcU.
- Foster, W. Foster's First Principles of Chemistry. New York, Harper & Bros., 1855. NcD.
- Fourcroy, Antoine Francois de. General System of Chemical Knowledge. London, Cadell and Davies, 1804. v. 2-10. NcU.
- Fownes, George. Elementary Chemistry, Theoretical and Practical. New American ed., Philadelphia, Blanchard, 1854. NcD.
- Francis, George William. Chemical Experiments. Philadelphia, Daniels & Smith, 1850. NcU; 8th ed., London, J. Allen, 1855. NcU.
- Fresenius, Carl Remigius. Elementary instruction in chemical analysis. New York, D. Appleton & Co., 1844. NcU. Fresenius also wrote A system of instruction in qualitative chemical analysis. London, Churchill, 1855, NcU; and A system of instruction of quantitative chemical analysis. London, Churchill, 1854, NcU.
- Fyfe, Andrew. Elements of Chemistry. Boston, Richardson and Lord, 1827. NcU.
- Gay-Lussac, Joseph Louis. Cours de Chimie. Brussels, H. Tarlier, 1829. 2v. NcU.

American Library Association News

August 5, 1970—The following joint statement was released today by the American Library Association and the Internal Revenue Service:

Commissioner of Internal Revenue, Randolph W. Thrower, and Mr. David H. Clift, Executive Director of the American Library Association, and staff members, met today to discuss their concern over certain inquiries by Internal Revenue Service investigators in a number of libraries.

Following an exchange of views, it was agreed that efforts would begin, in a spirit of cooperation, to develop guidelines acceptable to the American Library Association and the Internal Revenue Service. In reaching this accord, the principals recognized that due notice will have to be taken of the individual's right to privacy as well as the agency responsibility to administer the statutes.

In the work ahead, an attempt will be made to identify areas of reconciliation that would give the Government access to specific library records in justifiable situations but would unequivocally proscribe "fishing expeditions" in contradistinction to the investigation of a particular person or persons suspected of a criminal violation.

For some time Catalogers have needed guidelines for processing non-book materials. At the 1970 Detroit conference of the American Library Association, the Executive Committee of the Cataloging and Classification Section of the Resources and Technical Services Division endorsed a recommendation of the Section's Audio-Visual Media in Libraries Committee, by voting to accept the publication, *NON-BOOK MATERIALS: THE ORGANIZATION OF INTEGRATED COLLECTIONS*, published by the Canadian Library Association, as an interim guide for the cataloging of non-book materials, with the proviso that a permanent ALA/CLA committee be established to work on any necessary revision for the final edition and its supplements.

The Executive Board of the American Library Association has set up procedures and named a Search Committee to help find a successor to David H. Clift, Executive Director of ALA. Mr. Clift announced at the April meeting of the Executive Board this year that he would retire in the summer of 1972.

According to a timetable approved by the Executive Board, "all nominations, or suggestions, are to be in the Search Committee's hands by February 15, 1971. The Committee will then produce a list of from six to ten names to present to the Executive Board at the Dallas Conference in June 1971. The Board will then attempt to complete its interviews by the fall Board meeting in 1971 and reach a decision at that time; certainly no later than by Midwinter 1972. This would make it possible to introduce Mr. Cliff's successor to the membership at the 1972 Annual Conference."

The Executive Board has named these people to the Search Committee: Rutherford D. Rogers, University Librarian, Yale University, Chairman; John A. Rowell, Director of Programs for School Libraries, Case Western Reserve University School of Library Science; Mrs. Shirley Olofson, Kentucky Program Development Office; Archie L. McNeal, Director, University of Miami Libraries; and Effie Lee Morris, Coordinator, Children's Services, San Francisco Public Library.

These members were chosen because they were felt to be broadly representative of the membership of ALA and because they were not members of the Executive Board. The entire committee will be discharged upon completion of its assigned task.

The procedures were set up by the Executive Board Committee to Establish Procedures for Selecting a New Executive Director for ALA. Members are Roger H. McDonough, Director, New Jersey State Library, and Past President of ALA (Chairman); Jean E. Lowrie, Head, Western Michigan University Department of Librarianship; and Robert J. Talmadge, Director, Technical Department, University of Illinois Library (Urbana).

In a report to the Executive Board, the procedures committee said that "it is suggested that the Search Committee invite individual members, as well as various units of the Association — divisions, round tables, chapters, etc. — to submit names to the committee for consideration." It was also recommended "that the Search Committee enlist the assistance of the headquarters staff in developing lists of acceptable names for consideration by the Search Committee."

The report also suggested, "though perhaps it is unnecessary to emphasize the point, that the Committee should not be limited in its consideration of possible candidates by any limitations that might be imposed by reason of sex, race, or any consideration that goes beyond the individual's intrinsic worth and value as an individual human being. While the Committee will undoubtedly give primary and most serious consideration to individuals who are professional librarians, it should not be limited wholly to the suggestions it receives from individual members and units of the Association, but should be free to conduct its own explorations if it appears necessary and desirable for it to do so. As far as circumstances permit, the Executive Board will give first consideration to those candidates proposed by the Search Committee."

Chairman Rogers invites all interested people to send in names for consideration to his office: University Library, Yale University, New Haven, Connecticut. The recommendation should include the full name, present library address and present library position of the suggested candidate. If the suggested person's name is not listed in WHO'S WHO IN LIBRARY SERVICE, as much as is known about the individual's background and present position should be included, according to Mr. Rogers.

Two graduate programs of library education have been officially accredited by the American Library Association according to an announcement issued by the Association's Committee on Accreditation at the ALA Annual Conference in Detroit. The newly accredited programs are offered by the School of Library Science, University of Alberta, Edmonton (Sarah R. Reed, Director) and the Library Science Program, Queens College of the City University of New York

(Frederick A. Forrest, Chairman). This brings the number of library schools offering programs accredited by the American Library Association to 52.

Because the potential long-term contribution of the Freedom to Read Foundation to the cause of intellectual freedom in libraries is so profound, the Foundation's Board of Trustees has approved a special form of recognition to honor those supporters who have joined in its first year, it was announced by Mrs. Judith F. Krug, the Foundation's Executive Director. CHARTER MEMBERSHIP CERTIFICATES will be issued to all individuals and institutions joining the Foundation prior to September 30, 1970.

CHARTER MEMBERSHIP CERTIFICATES are printed on parchment paper and will be a lasting symbol of the member's interest in preserving the rights of libraries and librarians. Categories of membership are as follows:

- Regular: \$10.00
- Contributing: \$25.00
- Sponsor: \$50.00
- Patron: \$100.00
- Benefactor: \$500.00

Mrs. Krug also announced the results of the Foundation's May election of Trustees as follows: elected to a two-year term, expiring in 1972, are Mrs. Carrie Robinson, Jean-Anne South, Alex Allain, William S. Dix, and Everett Moore; elected to a one-year term, expiring in 1971, are Kenneth Duchac, Ervin Gaines, Daniel Melcher, and Joseph Reason.

The Foundation was established by ALA in November, 1969, to fulfill these purposes: (1) To promote and protect freedom of speech and freedom of press as such freedoms are guaranteed by the Constitution; (2) To promote the recognition and acceptance of libraries as repositories of the world's accumulated wisdom and knowledge and to protect the public right of access to such wisdom and knowledge; (3) To support the right of libraries to include in their collections and to make available to the public any literary work which it may legally acquire; and (4) To supply legal counsel and other support to libraries and librarians suffering legal injustices due to their defense of freedom of speech and freedom of press.

A project to involve prospective members of the library profession in American Library Association activities has been named the winner of the J. Morris-Jones-World Book Encyclopedia — ALA Goals Award for 1970, it was announced by David H. Clift, Executive Director of ALA, at the ALA's Annual Conference in Detroit, June 28-July 4.

The project will be carried out by bringing one student from each of the 50 ALA-accredited graduate library schools in the United States and Canada, on an all-expense-paid trip, to Dallas to attend the Annual Conference of the American Library Association in 1971.

An objective evaluation of the effectiveness of the program is basic to the project. A research procedure has been especially designed to measure this effectiveness.

The three-fold purpose to be accomplished by the project is: 1) to communicate to the students the function and goals of the Association; 2) to recruit new members for the Association; and 3) to provide a framework within which those persons entering the profession may be given formal means of communicating their concerns to the leadership of the Association.

"We believe that bringing these library students into the ALA Annual Conference, where the action is, will encourage them to participate in association activities throughout their professional careers. This will help strengthen ALA and, we believe, will contribute to the strength of the profession," Ruth Warncke, Deputy Executive Director of ALA, said.

Host for the 1971 May Hill Arbuthnot lecture will be the School of Library Service, Atlanta University, and the Division of Librarianship, Emory University, both in Atlanta, Georgia.

This was announced by Mrs. Zena Sutherland, Chairman of the Arbuthnot Honor Lecture 1971 Committee, during the Annual Children's Services Division Membership Meeting at the American Library Association Annual Conference in Detroit, July 1. The lecture will be given in Atlanta sometime during April, 1971, the date to be announced soon.

This lectureship is made possible by a grant from the Scott, Foresman and Company and is administered by the Children's Services Division, ALA.

The lecturer for 1971 was announced earlier and is to be John Rowe Townsend, the children's book editor for the Manchester Guardian. He is also editor of the weekly international edition of The Guardian and author of *Written for Children*, a study of English children's literature. His books for children have been published in the United States as well as in England; one of them, *Hell's Edge*, was runner-up for the Carnegie Medal.

Two annual citations will be presented to persons directly responsible for a school or group of schools who have made unique and sustained contributions toward furthering the role of the library and its development in elementary and/or secondary education. One citation will be presented to an administrator of a large district, and one citation will be awarded to an administrator with an average daily membership of less than 10,000 students.

Nominations may be made by state, district and local school library media associations; state, district, and local education associations; state school library supervisors, and school library education agencies. Donated and administered by American Association of School Librarians.

Deadline for nominations, NOVEMBER 15, 1970. Send nominations to jury chairman: Beatrice Turk, Coordinator of School Libraries, Board of Catholic Education, 5103 Superior Avenue, Cleveland, Ohio 44103.

The National Commission on Libraries and Information Science is about to become a reality, following Presidential approval on Monday, July 20, 1970. In signing the law (P.L. 91-345), Mr. Nixon said:

The National Commission, created by the bill before me, will be asked to provide an overview of our need in this area and to advise on what steps we can take to ensure that we are meeting them. The Commission will be empowered to study the effectiveness of existing programs, and to develop plans to coordinate the diversity of library and information activities of all kinds and at all levels. These are important tasks. I look to the Commission to tell us much about the state of our library resources and to encourage us to develop and use them more wisely than we have in the past. . .

The President indicated that he intends to appoint "distinguished citizens" to the 15-member panel, five of whom must be librarians. By statute, the Librarian of Congress will be one of those five.

Mr. Nixon said he looks "forward to the contributions of the National Commission on Libraries and Information Sciences. That body is to seek the improvement of America's knowledge of knowledge, its libraries and information centers. This task is a crucial one for the continuing health and enrichment of our Nation."

The Commission will be an independent unit, although housed in the Department of Health, Education, and Welfare for housekeeping purposes. In a statement issued from the White House, the President noted that he would have preferred for the Commission to be located under HEW: "In this way, its advice and recommendations would be more closely and productively related to the manner in which these programs are carried out and their funds spent." He also cited a desire to "avoid the proliferation of executive branch agencies."

The question of the Commission's independent status was thoroughly discussed in the Congressional Committees during consideration of the bill. In its report, the House Committee on Education and Labor "sought to assure that the Commission will enjoy the high level and independent status which it needs to avoid becoming either a rubber stamp for existing agencies, or merely a forum for an exchange of views . . . Inherent in the independence accorded the Commission is the right to make its recommendations to the President without seeking 'clearance' from any other Federal agency."

The Commission will not operate grant programs or replace any of the detailed planning which is now conducted by other operating Federal units. Neither will it have any authority to impose its views and recommendations on the nation's libraries.

The Commission has an annual authorization of \$750,000, plus authority to accept an unlimited amount of gifts and bequests. The President expressed reservations about the latter point, on the ground that the Commission's work might become "distorted" if it were to depend too heavily upon any one interest group for financial support.

The establishment of this permanent Commission grew out of the October 1968 report of the President's Advisory Commission on Libraries, which urged the formation of such a body to continue planning and coordinating activities on a long-term basis. Bills to implement this recommendation were introduced in the House and Senate early in 1969, but due to Congressional preoccupation with other matters, a final version was not worked out until early in July 1970. Spokesmen for the American Library Association, the Association of Research Libraries, and the Special Libraries Association gave supportive testimony at the Congressional hearings in the spring of last year.

At The Center, a new 16 mm color/sound motion picture, presents the role of the school library media specialist as a changing, exciting and dynamic force in our nation's total educational system. Filmed on location at a college campus and in seven school districts across the country, the film contributes to the awareness and understanding of the diversity of abilities, talents and specialized interests applicable to the vital role of the school library media specialist. It depicts school library media specialists working in elementary through secondary schools as they perform in a full range of activities from reading guidance and storytelling to the development of educational media and design of computer assisted instructional programs. The variety of roles projected in the film reflect the various career opportunities within the school library profession.

At The Center was sponsored by the School Library Manpower Project, funded by the Knapp Foundation of North Carolina, Inc. Administered by the American Association of School Librarians, a division of the American Library Association, the Project seeks to encourage and promote an active interest in the career of school librarianship. The film will support national

recruitment programs during Phase II of the Project and will be useful to personnel in educational institutions and agencies for promoting an understanding of future directions for school librarianship in the educational program.

At The Center has a running time of 28 minutes, 43 seconds and was produced by the Smithsonian Motion Picture Group, Office of Public Affairs, Smithsonian Institution, Washington, D. C. The Director of the film was John O'Toole, President of Eli Productions, Washington, D. C. Robert N. Case, Director, and Anna Mary Lowrey, Associate Director of the School Library Manpower Project, served as the film consultants.

The educational institutions cooperating in the production of At The Center were: Baltimore City School District, Maryland; Montgomery County Public School District, Maryland; Oak Park-River Forest High School District, Illinois; Glencoe Elementary District #35, Illinois; San Jose State College, California; Fountain Valley School District, California; Compton City Schools, California; and East Side Union High School District, California.

Prints of the film may be purchased for \$175.00 each from the Order Department, American Library Association, 50 East Huron Street, Chicago, Illinois, 60611. The film is available on a rental basis from Modern Talking Picture Services, Inc.

The ALA Office for Intellectual Freedom has announced the availability of a new tri-colored, illuminated edition of the LIBRARY BILL OF RIGHTS. Officially unveiled at the 1970 Annual Conference in Detroit, the new version is set in red, blue, and black calligraphy on heavy, fringed parchment. In its new 15" x 20" format, this edition of the LIBRARY BILL OF RIGHTS makes a most attractive display of the basic principles underlying library service in the United States.

The LIBRARY BILL OF RIGHTS is the Association's official policy statement on intellectual freedom as it relates to libraries. It was originally adopted by the ALA Council in 1948 and was amended in 1961 and 1967.

Copies of the new edition may be purchased for \$2.50 each from the Office for Intellectual Freedom, American Library Association, 50 East Huron Street, Chicago, Illinois 60611.

Recognizing the need for subsistence and other support at that moment an individual finds his position in jeopardy or is fired in the cause of intellectual freedom, the Board of Trustees of the Freedom to Read Foundation has established the LeRoy C. Merritt Humanitarian Fund. The purpose of this special fund is to allow an immediate response by the Foundation prior to the establishment of all pertinent facts in a particular case. Although the LeRoy C. Merritt Humanitarian Fund is separate from other monies in the Freedom to Read Foundation, its purpose is integrally related to the larger program for which the Foundation has been established: to promote freedom of the press and speech, and to defend the right of librarians to select freely from all the world's written and recorded information for their collections. Inquiries about this fund should be sent to Mrs. Judith F. Krug, Director, Office for Intellectual Freedom, American Library Association, 50 East Huron Street, Chicago, Illinois 60611.

Westinghouse Learning Publishes Seven-Volume Directory

[Photograph: A boxed set of seven matching hardcover volumes of the Learning Directory, shown alongside one additional volume standing separately on a shelf.]

The seven-volume Learning Directory, a unique new computer-compiled and organized single-source reference for educational materials in various media, is being published in September by

Westinghouse Learning Corporation. It is the first major directory to list both print and non-print teaching materials and includes over 200,000 separate items ranging across 47 media descriptions, from books, films and maps, to audio-tapes, games and multi-media kits. Priced at \$90, it is available from Westinghouse Learning Corporation, 100 Park Avenue, New York, New York 10017.

Policy on Sanctions

Adopted by the ALA Council, July 3, 1970

The Intellectual Freedom Committee proposes to implement the ALA PROGRAM OF ACTION IN SUPPORT OF THE LIBRARY BILL OF RIGHTS, by the following procedures:

The IFC will take action on complaints of violations of the LIBRARY BILL OF RIGHTS made by ALA members or anyone else. If it is determined that the IFC has jurisdiction and responsibility, an impartial and objective investigation will be conducted. After the investigation, the IFC will recommend appropriate action to the Executive Board, based on the facts gathered.

The IFC views all sanctions as grave, but particularly number 4. Such a sanction should be applied judiciously and only under extreme circumstances. Sanctions should be applied to administrations as a whole, and rarely, if ever, to specific individuals.

Sanctions may be defined as the appropriate penalty or penalties incurred for violating ALA policies regarding intellectual freedom. When the facts gathered in a case warrant it, one or more of the following sanctions may be recommended:

4. Publication of the report of an investigating committee with no statement of censure.
5. Publication of a report that includes a statement of censure, indicating the strong disapproval of ALA because of a violation of the Library Bill of Rights.
6. Suspension or expulsion from membership in ALA.
7. Listing of institutions under censure in the Intellectual Freedom Column of AMERICAN LIBRARIES as a warning to persons considering employment in an institution under censure that its practices and policies are in conflict with ALA policies of intellectual freedom. On the same page with such listings of censured libraries shall appear the following statement:

"The fact that the name of an institution appears on the censured list of administrations does not establish a boycott of a library, nor does it visit censure on the staff. There is no obligation for ALA members to refrain from accepting appointment in censured libraries. The ALA advises only that librarians, before accepting appointments, seek information on present conditions of intellectual freedom from the Office for Intellectual Freedom at Headquarters."

Educational Media Selection Centers Program

The National Book Committee has received a grant of \$81,844 from the U. S. Office of Education to carry out Phase II of a nationwide Educational Media Selection Centers Program. The Phase II grant brings the total federal funding of the program to over \$300,000. The four-phase program is designed to help develop media selection centers for use by classroom teachers, curriculum specialists, librarians, and other adults concerned with educating children and youth.

In Phase II a guide will be prepared for establishing or developing such centers. This guide will be based on an analytic survey of existing centers made during the initial research phase of the program. The Phase I findings were accepted in final report form by the Office of Education early this year and transmitted to ERIC (Educational Resources Information Center). The abstract appears in the June, 1970 Research in Education under the #ED 036 201. The American Library Association plans to publish this report in the Fall of 1970, under the title: "Educational Media Selection Centers: Identification and Analysis of Current Practices."

Announcement of the Phase II grant and a summary of progress on the program were issued by Dr. Mason W. Gross, chairman of the Book Committee and of the EMSC Advisory Committee, a group of professional consultants representing more than forty national education organizations. Dr. Frances Henne, professor at the School of Library Service of Columbia University, is vice-chairman of the Advisory Committee.

Cora Paul Bomar Named Director

[Photograph: Portrait of Cora Paul Bomar, a woman with short, styled dark hair, wearing a light-colored blouse with a bow at the collar.]

Dr. Gross also announced that Miss Cora Paul Bomar, a nationally recognized school media specialist and a past president of the American Association of School Librarians, has been appointed EMSC director. Miss Bomar is an assistant professor at the School of Education, University of North Carolina at Greensboro, where she also heads a UNC-G committee making a developmental study of the university's needs for instructional media services. Prior to joining the UNC faculty in 1969, she was director of the Division of Educational Media for the North Carolina State Board of Education (1966-'69). Miss Bomar's professional experience also includes classroom teaching, county-system supervision of instruction (Grades 1 to 12), statewide school library supervision, and lecturing at library science and educational media institutes.

In her capacity as EMSC director, Miss Bomar succeeds John Rowell, director of School Library Programs at Case Western Reserve University, who directed the eighteen-month study of centers and their analysis for the Phase I report. Mr. Rowell, now concluding his term of office as AASL president (1969-'70), has become a member of the EMSC Advisory Committee.

Miss M. Ann Heidbreder continues as EMSC program coordinator for the National Book Committee, of which she is a staff associate.

Phase II Guide

The guide to be developed for educational media selection centers will cover major aspects of their objectives, services, collections and facilities. Included will be plans for networks of centers; principles for the evaluation, selection and acquisition of media; prototypes of advisory services and education programs for a variety of youth-serving adults; specific

recommendations related to budget, space, administration, staff, and dissemination of information about the availability and services of centers.

The EMSC "calendar" calls for development of the guide in a twelve-month period. It is anticipated that publication of the guide will bridge a current information gap for agencies planning new centers or administrators seeking to upgrade and extend their existing center collections and services.

Phase I Study

During the eighteen-month period covering Phase I, about 2,300 centers were queried, out of which 440 were selected to receive comprehensive follow-up questionnaires. After analysis of responses, 50 of these centers offering components of an effective program were studied in depth, through on-site visits by three-man survey teams. Balance and a diversity of professional experience were major considerations in the "design" for on-site visits: center staffs and users were interviewed; qualitative and quantitative data were gathered; and, wherever possible, the survey-teams included a librarian or media specialist, a teacher, and a school administrator or curriculum specialist. As a further step, analyses of these centers were conducted across the country, through a series of group discussions following the on-site visits.

Phases III and IV

During Phase III, it is planned that model or demonstration centers will be established. They will be fully functional and will be located in different parts of the country; they will reflect a variety of administrative and service patterns. Phase IV is designed to evaluate both the model centers and the effectiveness of the Phase II guide. The Phase IV report will be augmented by a comprehensive information campaign and the production of a film about center programs and services.

Information Brochure

To date, 25,000 brochures describing the EMSC Program have been distributed on request to a cross-section of professionals in education, as well as school boards, community agencies, heads of parent groups and civic leaders. A revised, updated version of the pamphlet is now available. Single copies may be obtained free by writing to: EMSC Brochure, National Book Committee, One Park Avenue, New York City 10016.

National Book Committee

Founded in 1954 as a nonprofit organization, the National Book Committee is composed of prominent private citizens associated with the arts and sciences, education and the professions, communications and the business community. It sponsors the National Library Week Program in cooperation with the American Library Association, the National Medal for Literature, administers the National Book Awards, and conducts research in fields related to reading, education and library development. The professional staff of the Committee is headed by John C. Frantz, executive chairman.

American Literary Manuscripts (1960) To Be Revised and Up-Dated

Librarians—especially those involved with manuscript and reference departments—will be interested in the project, now underway, to revise and up-date the volume, *American Literary Manuscripts: A Checklist of Holdings in Academic, Historical, and Public Libraries in the United States* (University of Texas Press, 1960), which is now out of print. Believing that a new edition of this census is needed, the sponsoring group of American literature scholars has set up a committee to carry out the task.

The plan is to place the data in the 1960 volume on computer tape, to correct known errors, and to add new data as it can be compiled. Headquarters of the project will be at Indiana University, Bloomington, where the project chairman, J. Albert Robbins, is a member of the Department of English. Within a year or so, scholars may write Professor Robbins and ask for newly reported data. Periodically these requests will be answered from computer print-outs. Once the new data is reported and edited, type for the new volume will be set mechanically from magnetic tape. The University of Texas Press will publish the revised edition. Target date for completion is 1975.

The committee (sponsored by the American Literature Section of the Modern Language Association) consists of Professor Robbins as general chairman and of seven regional chairmen, who, with regional associates, will work with manuscript librarians in gathering new data. The regional chairmen are A. W. Plumstead (University of Massachusetts, Amherst), New England; Joseph V. Ridgely (Columbia University), Middle Atlantic; Kimball King (University of North Carolina-Chapel Hill), South Atlantic; F. Warren Roberts (University of Texas), South Central; George Hendrick (University of Illinois), Midwest; Edward P. Nolan (University of Colorado), West; and John Stafford (San Fernando Valley State College), Pacific Coast.

Retraction — NCASL Scholarship Winner

Mrs. Hilda W. Townsend, Wilmington, North Carolina, recipient of a \$500.00 scholarship awarded by the North Carolina Association of School Librarians, will be attending East Carolina University, Department of Library Science rather than the University of North Carolina at Chapel Hill as reported in the Spring issue of *NORTH CAROLINA LIBRARIES*. Mrs. Townsend began her work this summer and will continue her graduate work in the fall quarter in Greenville.

To All Librarians in North Carolina

The privilege of giving guided tours to future librarians

[Ticket graphic: A tear-off ticket bordered by the words "public library," "university library," "school library," and "college library." It reads: "This ticket is good for a FREE TOUR of any North Carolina Library. Sponsored by the North Carolina Library Association." The heading above repeats "FREE" three times in large type.]

The Recruitment Committee of the North Carolina Library Association is distributing Free Tour tickets hoping to create interest in the library profession. You can help us recruit by making the tour of your library a grand one. The library profession offers positions which appeal to many

interests. When individuals ask to tour your library, introduce them to all the librarians and workers in your library and give them a description of the types of jobs done in your library. Perhaps someday you may be working with one of your visitors as a fellow librarian.

It is common knowledge that librarians will give free tours of their libraries without requiring a ticket. We hope, however, that the free ticket idea will get persons who might not think of taking a tour into the libraries and we hope the tours might interest them in the library profession. Tickets will be distributed from places other than libraries. If you would like tickets for distribution, please request the number you would like from the Recruitment Committee chairman.

North Carolina Library Association, Recruitment Committee

North Carolina Library Education News

East Carolina University Department of Library Science

Summer school opened on June 8 with enrollments surpassing past years. Students were enrolled in the twenty courses being offered during the two terms. A special workshop in media center management was very successful where participants were engaged in problem-solving and role playing. Several professors worked as a team with this group. Mrs. Elizabeth Detty, Librarian, Carroll T. Overton Elementary School, Salisbury, North Carolina worked with classes in storytelling and reading guidance for children. These groups worked, in addition to classroom time, in branches of the Greenville Public Library and in summer programs in the Greenville City Schools.

Most of the regular faculty taught both terms of summer school. Judith A. DeBoard, assistant professor, was selected as a participant in a federally-funded workshop in automation and information science at the University of California at Los Angeles this summer. Miss DeBoard teaches the courses at East Carolina in nonbook materials and automation of library processes. Formerly head cataloger at Morris Harvey College, she joined the faculty at ECU in 1969. Joining the faculty in the fall will be Marilyn Searson coming from the Department of Library Science, Radford College. She was formerly with the Greenville (S. C.) County Library and Clemson University at Sumter.

The local chapter of Alpha Beta Alpha, national undergraduate library science fraternity, have elected officers for the coming year. Serving as president will be James Gorst, a native of New Castle, Pennsylvania. Other officers for the new year include Cheryl Adams, Angier; Katherine Vance, Durham; Ken Caldwell, Statesville; Vivian Johnson, Columbia; and Nannette Sutton, LaGrange. Mrs. Lois T. Berry, assistant professor, serves as advisor to this honorary group. The Outstanding Member Award for 1969 went to Steve Howell, Garysburg, and James Hurdle, Elizabeth City. Their names have been inscribed on a plaque which hangs permanently in the

department. Mr. Howell, who served as president of the fraternity during 1969, was also recipient of the Department of Library Science's Outstanding Senior Award as well as the annual campuswide Phi Sigma Pi Outstanding Male Senior Award. He graduated in June with honors and will be a teaching fellow in the Department of Library Science during the 1970-71 school year.

Among courses offered beginning in the fall are two new courses entitled Library Administration and Management and Research Techniques in Library Science. Both of these are at the graduate level.

Dean John Howell of the East Carolina University Graduate School announced recently that a new graduate degree program has been approved by the North Carolina Higher Board of Education. The Master of Library Science degree program will prepare librarians for all types of libraries including public, college and university, and school.

The chairman of the Department of Library Science, Dr. Gene D. Lanier, stated that this culminates many years of work in preparation for the offering of this degree program. The Library Science Department has for many years offered the Bachelor of Science degree and the Master of Arts in Education degree with a library science major as well as certification programs for school librarians. "This new degree program will emphasize the multi-media approach to library work preparing students to handle all types of materials, both print and nonprint," said Lanier who has been chairman of the department since 1966. "The need for librarians has been voiced at all levels and East Carolina felt obligated to help meet this desperate need in the profession, particularly in North Carolina," he continued. "Many of our graduates have been placed in libraries other than schools and the degree which they held did not convey the preparation which they had received. We are very pleased that the Higher Board of Education has given us the opportunity to make this program available. Graduates of our present degree programs have fifteen to twenty positions from which to choose. This particular degree program will broaden their possibilities for employment."

The Master of Library Science degree, which is research oriented, will be available to students for the first time in the Fall Quarter, 1970. Applications should be sent directly to the Graduate School for fall admission.

The University of North Carolina at Chapel Hill

Dean Walter A. Sedelow, Jr., resigned from the deanship of the School of Library Science on June 30, 1970, to assume a post at the University of Kansas. Dr. Ray L. Carpenter, Jr., who has been a member of the School's faculty since 1958, is serving as Acting Dean for the year 1970-71. Chancellor Sitterson has appointed a committee of the University faculty to recommend nominations for filling the post.

The School is presently completing its plans for the long-awaited move into Manning Hall, the building which formerly housed the School of Law and which has been undergoing major renovations over the past year. The move is expected to take place before the beginning of the fall semester.

During the spring semester, the Library Science Club sponsored a series of informal sessions on job and career information. Entitled "Three Fridays in March," the programs included such topics as problems encountered in beginning to look for a job, how to find out about openings, letter-writing and interview techniques; how to evaluate a prospective job situation as to salary,

fringe benefits, career potentials; and the advantages and disadvantages of different jobs in different kinds of libraries, as well as opportunities outside the library field.

The University of North Carolina at Greensboro

Library Education Program

Two new faculty members have been appointed to the Library Education/Instructional Media Program beginning in September 1970. M. Sangster Parrott, Lecturer, will assume responsibility for courses in the areas of reference services, literature and bibliography, and public documents. Miss Parrott comes to the University at Greensboro from her position as Head of Reference/Documents Services, North Carolina State Library. Mrs. Weaver T. Sikes, Instructor, will work primarily in the areas of children's literature and selection of materials for adolescents. During 1969-70 Mrs. Sikes was assistant librarian, Kiser Junior High School, in the Greensboro Public Schools.

Mrs. Betsy Murray, who earned the M.A.T. degree in elementary education at the University at Chapel Hill, where she served as graduate assistant to Dr. Ralph Wileman, has joined the staff of the Center for Instructional Media as graphics artist.

The School of Education annex, housing the Center for Instructional Media, the Library Education/Instructional Media Program, and administrative offices for the School of Education, was opened June 8, 1970. The new facilities include the Center for Instructional Media Library (8,658 square feet), four preview rooms, four seminar and conference rooms, two classrooms, a graphics laboratory-classroom, audio-visual and technical services rooms, audio recording and television studios, darkroom, canteen, and faculty and staff offices and work areas. Visitors are welcomed, and the Center is open daily, Monday through Friday, as well as Monday through Thursday nights (except in the summer).

Dr. Donald Ely was on campus August 6-7 as consultant to the Chancellor's ad hoc committee on campus-wide media services.

New North Carolina Books

By William S. Powell

Hugh Zachary. The Beachcomber's Handbook of Seafood Cookery. Illustrated by Claude Howell. Winston-Salem: John F. Blair, Publisher, 1970. 208pp. \$4.95.

There is much more to this book than the title might suggest. It is a pleasant insight into the author's love of the coast and of seafood. It's a handy encyclopedia of coastal fish and other forms of seafood. It's a guide to cleaning, cooking, and serving a great variety of seafood, including some forms that most North Carolinians probably have never tried. There are attractive Claude Howell sketches to decorate the book and there are precise drawings by which various fish and crabs and other "things" can be identified; there's a drawing of an oyster knife and of a building in which to smoke fish. Finally, there are numerous recipes which list ingredients but which also include directions and comments drawn from the author's personal experience. Recipes for sauces, reluctantly included, and for bread are added at the end along with some comments about cooking on a grill. Scattered throughout the book are the author's comments on a variety of pertinent subjects not the least of which concern conservation and protection of our coastal and Atlantic resources.

Susan Blosser and Clyde N. Wilson, Jr. The Southern Historical Collection, A Guide to Manuscripts. Chapel Hill: Southern Historical Collection, University of North Carolina Library, 1970. [317]. \$6.00.

This descriptive guide to the more than five million manuscripts relating to the South in the Southern Historical Collection at the University of North Carolina will open up the resources of that Collection more fully than they ever have been before. There are adequate descriptions of the contents of thousands of individual collections consisting of from a few to hundreds of items, from single letters to letterbooks, account books, journals, and diaries. The description of each collection makes its contents, scope, dates, etc., clear. One useful feature is the large number of birth and death dates included. An index, three columns to the page, fills 48 pages and includes personal names, place names, and hundreds of subjects. Aside from being the guide it is, this work will serve many librarians well as a source of information for quick reference. No reference shelf in the state should be without a copy.

John Smith. The Generall Historie of Virginia . . . London: 1624. Facsimile edition published by Johnson Publishing Company, Box 217, Murfreesboro, N. C. 248pp. illus. \$10.00.

Although slightly reduced in size from the original, this is still a clear, readable, and satisfactory facsimile reproduction. It is one of the classics of American historiography, and is of especial interest to North Carolinians because it contains extracts from the accounts of Thomas Hariot and John Smith at Roanoke Island in the 1580's and of John Pory along the Chowan River in 1622. Its usefulness is diminished, however, because it lacks the index of later editions of Smith.

Wiley B. Sanders. Juvenile Offenders for a Thousand Years. Chapel Hill: The University of North Carolina Press, 1970. 453pp. illus. \$12.50.

This is a collection of cases or a source book, concerning the treatment of young people, some of whom ran afoul the law, from Anglo-Saxon times to the late nineteenth century. Most of the instances cited are English or American. In a few cases, particularly the very early ones, a similarity to conditions today among teen agers will produce the reaction among the over-30 group, "Ah, they survived then and so can we." In others, for instance the detailed document telling of very young children being worked in gangs in the fields of England, the reaction will be horror and disbelief. Professor Sanders of the University of North Carolina has compiled an interesting and useful collection of cases from a wide variety of elusive sources.

Charles Fitzgerald McKiever. Slavery and the Emigration of North Carolina Friends. Murfreesboro: Johnson Publishing Company, 1970. 88p. \$4.95.

The aim of this little book is "to investigate the history of the Quakers of North Carolina in order to determine the reasons for their emigration from the Old North State during the decades prior to the Civil War." The author was more especially determined to learn whether there was any relationship between slavery and the movement of Quakers from the state. He has produced a semi-scholarly study with footnotes and bibliography and written in a rather stilted and not particularly readable style. The majority of his sources are secondary and there are a number of irritating errors in citing them. It's North Caroliniana, of course, and if your library is collecting everything in that category, buy a copy! if not, the same information, for the most part, can be found elsewhere.

Richard S. Kennedy and Paschal Reeves, editors. The Notebooks of Thomas Wolfe. Chapel Hill: The University of North Carolina Press, 1970. 2 vols. \$30.00.

From 1926 until just a few months before his untimely death in 1938, Thomas Wolfe kept a series of pocket notebooks in which he jotted a great variety of information. Some of his entries are simply lists: people, places, books. Others represent things he saw—the scene outside a railway carriage in England as he settled down for a journey; the people on a New York subway at 3 o'clock in the morning! his reaction to a boat trip on the Rhine. Some entries are in the nature of a diary while others represent rough drafts or the finished forms of portions of his novels. Others are drafts of letters never sent. And there are words indicating pronunciation of people from certain places, the South, perhaps, or Brooklyn; descriptive phrases, potential titles; poems; quotations; dialogue real or imagined, and a host of other curious tidbits.

The notebooks make interesting reading for their great variety, of course, but also because they show how Wolfe worked, what he thought about, and how he collected information for future use. Many of his entries are very moving, quite touching, and sad in view of his life and early death. Undoubtedly the reader of these notebooks will put them down with more sympathy for Wolfe and a deeper appreciation of him than from reading anything else he wrote. These notebooks, however, are not for every reader in spite of the fact that the editors tell us they were prepared "for the general reader, especially the college student." In the average North Carolina library a little "selling" on the part of the librarian to the patron may be necessary, but the "purchaser" will be well rewarded.

Franklin and Mary Wickwire. Cornwallis, The American Adventure. Boston: Houghton Mifflin Company, 1970. 486pp. illus. \$10.00.

Carefully researched, fully documented, and attractively printed, bound, and illustrated, this book is also surprisingly readable. It is, in fact, for anyone moderately interested in American history, one of those legendary books that is "hard to put down." Cornwallis was of concern to Revolutionary North Carolinians (as well as to the Tories, of course) from the time of the Battle of Moore's Creek Bridge in 1776—to which he arrived too late—until he departed the state after the Battle of Guilford Courthouse and an unhappy trek to Wilmington in 1781. He was not in the state all of the time between those dates, of course, but his whereabouts was known to our leaders, nevertheless. This book lays ample stress on his presence in this state, but aside from that the subject is one of current interest with the bicentennial of the Revolution almost upon us. This is a book that might well be on the waiting list in many Tar Heel libraries, once word of it gets around.

F. Roy Johnson. The Nat Turner Story. Murfreesboro: Johnson Publishing Company, 1970. 240pp. illus. \$7.50.

This is the story of Nat Turner, the black hero or villain who led some half a hundred slaves on a bloody rampage through lower Southampton County, Virginia, in late August, 1831. Repercussions were felt in much of northeastern North Carolina, particularly in Hertford and Northampton counties just across the line below Southampton County. The fear of slave uprisings in North Carolina was real for quite a long time. In addition to being a carefully researched and factual account of this period of history, this book also records numerous traditions of the times. A system of keyed references will refer the reader to the source of each of the traditional stories.

University of Denver Announces Microforms to Be Studied by University Libraries

The urgent problems associated with the rapidly expanding role of academic microforms will be considered at a national conference sponsored by the University of Denver and supported by the U.S. Office of Education, 7-9 December 1970.

Microforms, which include transparent films and opaque prints, permit many pages of information to be compressed into a small area on film or on paper; some type of magnifying equipment must be used to make these images legible when such information is again required.

Under the title "Microform Utilization: The Academic Library Environment," the Denver meeting will direct attention to the physical facilities required and the environmental conditions needed by microform users having academic needs. The conference will also consider the administrative tasks and services attendant upon easy access to these materials as well as their accountability, the necessary training of personnel to serve increased user requirements, and some of the human behavior problems which become evident as users (particularly students) make the adjustment to machine reading to obtain needed library information.

It is planned that 50 people will be invited to participate in the three-day microform conference: library administrators, library-connected educators, microform specialists and researchers. Each individual attending will present a particular contribution to the subject. The proceedings will consolidate some of the various solutions, currently used or planned, for meeting the information needs of microform users in libraries of educational institutions and will be made available for wide dissemination.

Conference Chairman is Mr. James P. Kottenstette, Denver Research Institute, University of Denver, Denver, Colorado 80210.

People and Places

Richard E. Lietz, librarian of St. Andrews Presbyterian College, is taking a one-year leave of absence to begin work on his Ph. D. at the Florida State University School of Library Science.

Lietz will continue to act as consultant to a three school computer catalog project involving St. Andrews, Pembroke State University, and the University of North Carolina at Wilmington and backed by a Title III grant.

Elizabeth Holmes will become acting librarian at St. Andrews. Mrs. Holmes was one of 15 librarians in the country appointed to attend the Institute on Acquisition of Non-Western materials for College Libraries held at Columbia University this summer sponsored by a Department of Health, Education, and Welfare grant.

St. Andrews has a developing collection of non-Western materials, and students receive programs of study in major cultures of Africa, Asia, and Latin America.

During the summer St. Andrews served as host for the initial and organizational meeting of the Carolina Libraries Co-op with Richard Lietz as Acting Coordinator. It is hoped the Co-op will serve small and medium sized libraries in both Carolinas working toward some practical solutions of budgetary, staffing, and logistical handicaps.

Miss Jane Williams, a reference librarian at the Public Library of Charlotte and Mecklenburg County, became head of the serials department of the Davidson College Library August 1.

Her job includes responsibilities for the library's periodical and government documents holdings, according to Dr. Chalmers Davidson, director of the library at Davidson.

Miss Williams graduated from East Mecklenburg High School in 1962, Pfeiffer College in 1966, and received her M. S. in Library Science from UNC-Chapel Hill in 1967.

William R. Perkins Library, Duke University

At the invitation of Professor A. D. Kominis of the Royal Hellenic Research Foundation in Athens, Dr. John L. Sharpe III, Curator of Rare Books in the William R. Perkins Library, Duke University, spent the summer as a member of a team studying, indexing, and photographing the manuscript treasures in the almost 900-year-old monastery library of St. John the Theologian on the Greek island of Patmos. Dr. Sharpe made an intensive study of two early manuscripts of the Apocalypse of Moses with the publication of a critical text for the series *Pseudepigrapha Veteris Testamenti* in view.

Elvin E. Strowd, head of the circulation department in Perkins Library at Duke University since 1955, has been promoted to assistant librarian.

The appointment, effective July 1, was announced by Duke Provost John O. Blackburn.

A native of southeastern Virginia, Strowd graduated from Guilford College in 1948 and went on to earn a master of arts in modern European history and a bachelor of science in library science degree at the University of North Carolina at Chapel Hill.

In addition to his duties in circulation at Duke's main library, Strowd will be in charge of the extensive departmental libraries in chemistry, biology-forestry, physics and mathematics, and the School of Engineering.

Out-of-Print North Carolina Books to Be Reprinted

The Committee on North Carolina Books of the NCLA has been at work for the past several years trying to determine which out-of-print books are most needed by the libraries of North Carolina.

To culminate their efforts the Committee recently has compiled a list of 12 books, out-of-print, which they feel should be reprinted. Tentative arrangements have been made with The Reprint Company of Spartanburg, South Carolina, to issue reprint editions of these 12 titles.

Since a project of this scope requires an indication of substantial pre-publication support by the libraries of the state and individuals interested in North Carolina before the publisher can proceed, a pre-publication subscription campaign will begin in October and run for sixty days. The publisher has agreed to reprint any or all of the titles if a minimum of 200 copies of each title are ordered prior to publication. The Reprint Company has reserved the right to remove from the project any title failing to receive the minimum indication of support.

Members of the North Carolina Library Association will be eligible to order the entire set of 12 titles at 33⅓% discount from retail price during the sixty-day subscription period. Selected titles from among the list may also be ordered at the same 33⅓% discount.

Titles being considered are:

These first ten are clear of all copyright problems and can be reprinted if the 200 orders are obtained.

- Ashe, Samuel A'Court. History of North Carolina, v. 1.
- Ashe, Samuel A'Court. History of North Carolina, v. 2.
- Connor, R. D. W. Ante-Bellum Builders of North Carolina.
- Connor, R. D. W. Race Elements in the White Population of North Carolina.
- Connor, R. D. W. Revolutionary Leaders of North Carolina.
- Bassett, John Spencer. Anti-Slavery Leaders of North Carolina.
- Jenkins, John Wilber. James B. Duke, Master Builder.
- Konkle, Burton Alva. John Motley Morehead and the Development of North Carolina 1796-1866.
- Hughson, Shirley Carter. The Carolina Pirates and Colonial Commerce, 1670-1740.
- Weaver, Charles Clinton. Internal Improvements in North Carolina Previous to 1860.

These next two are still tentative. They are still in copyright and negotiations to release them for the project are underway.

- Andrews, Evangeline Walker, ed. Journal of a Lady of Quality; Being the Narrative of a Journey from Scotland to the West Indies, North Carolina, and Portugal, in the Years 1774 to 1776.
- Parker, Coralie. The History of Taxation in North Carolina During the Colonial Period 1663-1776.

Members of the Association will receive prices of the reprints through a mail order campaign. Inquiries may be addressed to: The Reprint Company, 154 W. Cleveland Park Drive, Spartanburg, South Carolina 29303.

Status of Legislation of Interest to Librarians

91st Congress, 2nd Session, Convened January 19, 1970. Chart Date: July 31, 1970.

The original chart presented this information in a rotated, multi-column grid tracking each bill's progress through House and Senate committee hearings, report numbers, and floor votes. That level of column-by-column detail could not be reliably read back from the scan, so it is omitted here rather than risk misstating a bill number or vote. The legislation titles below, grouped as in the original, are accurate; for the detailed tracking figures (introduction dates, hearings, report numbers, floor action) or exact Public Law citations, please consult the original chart on page 129 of the scanned issue.

General Legislation

- Appalachian Regional Development '69 / Arts and Humanities Amendments '70
- Copyright Revision
- Economic Opportunity Amendments '69

- Educational Technology Act '69
- Educational TV and Radio
- Elementary & Secondary Educ. Amdts. '69
- Grant Consolidation Act '69

Higher Education Legislation

- Comprehensive Community College Act '69
- Higher Educ. Amdts. of 1970
- Higher Educ. Bill of Rights '69
- Higher Educ. Oppor. Act '70
- Intergovernmental Personnel Act '69
- Library Servs. and Constr. Amdts. '69
- Library Servs. and Constr. Amdts. '70
- Medical Library Assistance Amdts.
- Natl. Comm. on Libraries and Inf. Sc.
- Older Americans Act Amendments
- Postal Reform
- Public Works and Economic Development
- Tax Reform

Appropriations

- Continuing Resolution, FY 1971 (thru 7/31)
- Continuing Resolution, FY 1971 (thru 10/15)
- Office of Education, FY 1971
- Independent Offices & HUD (Appalachia, Model Cities, Hist. Publs., NSF)
- Labor-HEW (Med. 5. Assistance Act)
- Legislative Appropriations (LC, PL480, Depository Libraries)

NOTE: For copies of bills and reports, write to House or Senate Document Rm., US Capitol, Wash., D. C. 20515 & 20510 respectively. As reported by David L. Hunsacker, Federal Relations Coordinator, NCLA.
