

## IMPORTANT NEW BIBLIOGRAPHY

THE WOMAN'S COLLECTION, "a bibliography of material in all matters pertaining to women's interests added to the Woman's College Library of the University of North Carolina, 1944-1949," compiled by Minnie Middleton Hussey.

This is one of the most valuable tools published in many months. It is a well annotated bibliography covering every possible subject concerning women: The child, the family, the home, costume, women's work in various jobs, women in history and periodicals in the field. It seems that the Bibliography will prove useful in two particular ways. First, because it is so well annotated, it should serve as a good buying guide for libraries trying to round out their own collections in the various subjects considered. Secondly, Mr. Charles Adams, Librarian of the Woman's College, states in his Introduction, "by publication of the bibliography it is hoped that the usefulness of the materials may be extended beyond the campus to alumnae, to citizens of the State of North Carolina..." Thus, it seems libraries throughout the State will be able to borrow from the collection. This, then, is an excellent guide to the holdings of the College in this field.
